ABOUT THIS JOURNAL

Eurasian Journal of Soil Science (EJSS) is the official Journal of the Federation of Eurasian Soil Science Societies. EJSS is a peer-reviewed, open-access journal dedicated to publishing high-quality research articles, critical reviews, and short communications in the broad field of soil science, including soil-plant interactions and environmental soil studies. The journal serves as a platform for global and regional theoretical and experimental research on soil science, fostering knowledge exchange among researchers, professionals, and policymakers.

ABSTRACTING AND INDEXING: The Eurasian Journal of Soil Science (EJSS) is indexed and abstracted in several prestigious international databases, ensuring global visibility and accessibility for published research. The journal is recognized in the following indexing and abstracting services: SCOPUS, CAB Abstracts, DOAJ, EBSCOhost, ProQuest, CAS, TR Dizin, CrossRef, TURKISH Journalpark, Google Scholar, etc.
